## Kelly Nelson and Sharon Dowell

ARE ART SMART.

One stroll past Center of the Earth Gallery in NoDa and that was it for Kelly. The self-employed web designer walked into the gallery where Sharon, an artist, works and asked her out. Sharon accepted and the rest is history. Kelly and Sharon, admittedly both perfectionists in their work, love to laugh and compliment each other beautifully.

### Kelly

"Sharon has that admirable combination of beauty, talent and intelligence. Additionally, she is tolerant of my oft awry wit which never fails to charm me."

### Sharon

"Creative, curious, and charming, Kelly is a rare find. He is my cohort in fun! I thoroughly love and enjoy having him in my life!"
